FIREMASTER CADET GLOVES

Price list effective from March 2019

DESCRIPTION & USE

An inseam gun design with an inset thumb made with PYROHIDE leather outer shell, a knitted wrist cuff and a blended KEVLAR seamless knitted lining.

It is not designed for structural fire-fighting duties and should not be worn where there is a risk of injury or flame.

PYROHIDE is a world class top grade aniline grain cowhide developed specifically for fire fighters and used by 48 of the 61 brigades in the UK. It offers resistance to fire, heat, salt water and liquid chemicals. It is highly tactile in wet and dry conditions and dries soft following normal use. Manufactured in the UK.

KEVLAR blended slash resistant seamless lining.

Price: £21.75
